

360Plus for BusinessObjects Enterprise XI (R2 and 3.x): a powerful and user-friendly web-based tool for managing and comparing multiple BO environments at once.

Log on many environments Compare them using 360Plus

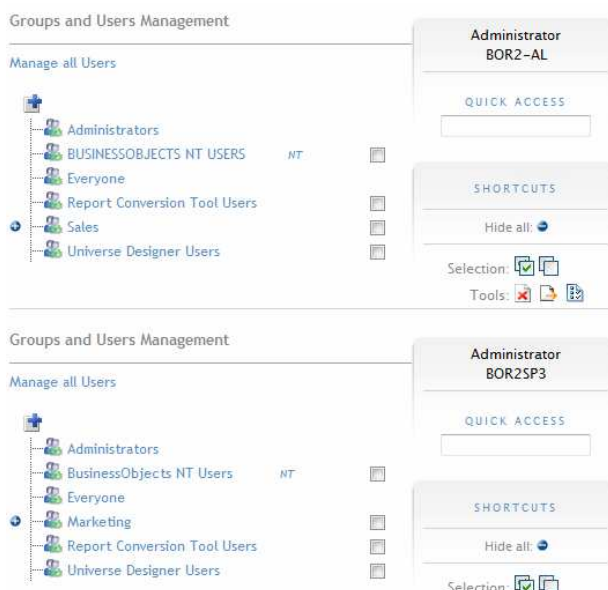

- Connect to several environments with the simple home page connection form.
- Compare actors and every type of content (folders, reports, categories ...) by ID, name and date of last modification.

Schedule BIAR files Restore content and actors

- Backup your environment: Schedule BIAR files using an integrated and powerful scheduling engine.
- Restore whatever you want wherever you want.
- Restore deleted content and actors.

Manage content and actors from multiple environments at once. Drag and drop content and actors between CMS

Visualize the information for every environment connected.

- 360Plus brings back the 360View content management interface.
- Manage all your BO objects at once whatever the number of environments.
- Drag and drop content (objects and security) between environments.
- Replace the Import Wizard.

Try our trial version and see how simple it is to monitor, manage all kinds of BO XI objects and compare environments using 360Plus.

Why choose 360Plus?

It allows you to compare every type of object according to several benchmarks:

Objects:

Users, Groups, Folders, Universes, Connections ...

Benchmarks:

IDs, Names, Dates of modification
