

# Ensure Business Objects License compliance

**Count in a click your B05.x, B06.x or BOEXI  
Business Objects licenses**

## Business Objects licenses audits

- BO **license assessment** will increase.
- Self certification process (declare deployed licenses) and audits.
- Accurately account for and to ensure license compliancy is a **difficult and tedious manual task**.
- Difficulty in effectively managing BusinessObjects licenses.
- Unintentionally **non-compliance** due to a lack of:
  - license control processes.
  - license knowledge.
- CMS and repositories can easily become a **black box** for Administrators and End-Users.

## Our solution for Business Objects licenses inventory

### Integrity solution key features:

- Automated **quick and easy** solution to ensure compliancy with your Business Objects licenses.
- Working with BO5.x, 6.x, XI R2 and XI 3.x.
- Enabling you to have a full control of your licenses.
- **Count in few clicks** your deployed licenses: named users and CPU.
- **Onsite or remote audits:** Get a snapshot of your current licenses.
- **Buy or rent** Integrity.
