

# Ensure Business Objects License compliance

**BO5.x, BO6.x or BOEXI license compliance  
is just a mouse click away**

- BO **license assessment** will increase.
- Next step: **100% of the BO customers will be audited** every year.
- Self certification process (declare deployed licenses) and audits.
- Accurately account for and to ensure license compliancy is a **difficult and tedious manual task**.
- Unintentionally **non-compliance** due to a lack of:
  - license control processes.
  - license knowledge.
- CMS and repositories can easily become a **black box** for Administrators and End-Users.
- Currently **90% of the audited customers are non compliant**.

## I. Confidence stage

Letter asking for counting

First counting  
(self made)

Assumed conformity

## II. Reality

BO intervention

Counting using SAP  
tool

Non compliance  
(90% of the time)

## Integrity solution key features:

- Automated **quick and easy** solution to ensure compliancy with your Business Objects licenses.
- Working with BO5.x, 6.x, XI R2 and XI 3.x.
- Enabling you to have a full control of your licenses.
- **Count** your deployed licenses is just **a mouse-click away**: named users and CPU.
- **Onsite or remote audits**: Get a snapshot of your current licenses.
- **Buy or rent** Integrity.

## Generate licenses matrix:

	Total Users	Designer	Supervisor	Business Query	BO Infoview	BO Reporter	BO Explorer	BO Webi Infoview	Webi Reporter	Webi Explorer	BCA
Active Users BO5.x or BO6.x	45	4	4	18	20	19	19	2	2	2	4
Total	45	4	4	18	20	19	19	2	2	2	4

	Total Users	Designer	Deski Reader	Deski Creator	Deski Explorer	Infoview Reader	Webi Creator	Webi Explorer	Webi Interactive	Scheduled documents
Active Users BOXIR2 or BOXI3	48	2	20	19	19	2	2	2	40	Yes
Total	48	2	20	19	19	2	2	2	40	Yes

Compare it with what you bought!
